

Rules and Regulations for the Indoor Range.

- Muzzle of the firearm must be pointed in a safe direction at all times.
- A Range Officer must be designated when there are multiple shooters on the range.
- Guests and non-members must accompanied and supervised by a member in good standing.(a member may invite a guest no more than 3 times before that individual is expected to pay for his or her own membership.)
- Long arms will be carried unloaded, cased and/or slung (barrel in a safe direction) when not in use. Actions will be open and where applicable, magazines removed.
- Handguns will be carried unloaded, cased or holstered when not in use. Revolvers will have hammer down, semi-automatics will have slide forward, hammer down (where applicable) and magazine removed. no shoulder, cross draw or small of back holsters allowed .
- No Firearm is to be loaded without the Range Officer's approval.
- The shooters finger shall not be within the trigger guard unless the muzzle is pointing at the target area.
- No firearm is to leave the firing point before being cleared by a Range Officer.
- do not bring any loaded or jammed guns into the lobby
- targets must be mounted below the designated line... No exception
- do not put live ammunition in brass pail or garbage cans
- all firearms must be in a case/container when transported onto and off the premises.
- eye and ear protection on the range at all times
- Firearms left at the firing point must be unloaded (magazines out, top cover open where applicable) and actions open.
- No one is to go forward to the targets before a Range Officer has cleared all the firearms on the line and the range has been given all clear. While forward, no one on the line will handle any firearm.
- Junior members can only use firearms under the direct supervision of a club approved adult or a range Officer unless approved by the Chief Range Officer or a Range Officer for independent shooting.

- No person will be allowed on the range who is under the influence of alcohol or drugs.
- Members are expected to leave the range in a tidy and clean state.
- No shooting without the Red light in operation. It is the responsibility of the first person on the range to activate and the last person on the range to de-activate the warning system.
- Caliber Limitations
 - Firearms are limited to rimfire and Pistol Calibers with a maximum velocity of 2200 Ft./sec and/or a maximum energy of 2200 ft. lbs.
